

**DARLEAN SCOTT**

Female DOB: 06/12/1964

144349

Ins: Medicare Southern Region

**10/07/2021 - Office Visit**

**Provider: Mukesh Misra MD**

**Location of Care: Antelope Valley Neuroscience Medical Group**

**History of Present Illness:**

I saw DARLEAN SCOTT back in the office today. She is now over a month she had a spinal cord stimulator implantation. Patient for follow-up. Her incision is healing well. She had seen Medtronic representative in her spinal cord stimulator has been programmed adequately. She does have adequate coverage. She takes medication discussed regarding pain management with the patient at this time. We go to slowly find ways to cut down her narcotic intake. In the meantime plan is to continue present management. Plan discussed with patient and family.

Patient complies with the 4 A's of opioid treatment.

ADL's: Patient is able to perform activities of daily living with the aid of the medications.

Adverse side effects: No side effects noted including cognitive/somnolence/respiratory depression and constipation.

Abuse: No signs of abuse, misuse or diversion

Associations: No worsening depression or anxiety.

A CURES report from the Department of Justice - Bureau of Narcotic Enforcement was reviewed and is consistent with the medications we are prescribing. Patient would recommend to continue decreasing medication for his pain. Adverse of medication discussed with patient as well.
