

DARLEAN SCOTT

Female DOB: 06/12/1964

144349

Ins: Medicare Southern Region

07/08/2021 - Office Visit

Provider: Manprit K Dhillon MD

Location of Care: Antelope Valley Neuroscience Medical Group

History of Present Illness:

I saw DARLEAN SCOTT in the office today for a followup consultation. She is a 57 year old woman who was most recently seen by Dr. Misra on May 5. She has stable low back pain involving her right greater than left lower extremities circumferentially to the mid calf level. She has intermittent numbness and weakness of the legs. She is to undergo a spinal cord stimulator trial by Dr. Sadik at universal pain management on August 5. She was scheduled to see me today as she needs medication refills and Dr. Misra is currently not in the office. She is also awaiting a lumbar facet block. Her most recent injection was in 2019.

She takes Percocet 10/325 4 per day and Soma 3 per day.
