Patient Instructions:

- 1) Please schedule a follow-up appointment in 6 weeks.
- 2) Discussed the hazards of tobacco smoking (use). Smoking cessation recommended and techniques and options to help patient quit were discussed.
- 3) Discussed importance of regular exercise and recommended starting or continuing a regular exercise program for good health.
- 4) The patient was encouraged to lose weight for better health.
- 5) Most patients (90%) of patients with low back pain will improve with time (2-6 weeks). Limit activity to comfort and avoid activities that increase discomfort. Apply moist heat and/or ice to lower back and take medication as instructed for pain relief. Please read the Back Pain Handout and start Physical Therapy as directed.
- 6) Limit activity to comfort and avoid activities that increase discomfort. Apply moist heat and/or ice to neck and take medication as instructed for pain relief. Please read the Neck Pain Handout and start Physical Therapy as directed. Plan steroid block following auth and clearance. SCS info given to patient as well.

Current Allergies:

No known allergies
