Patient Instructions:

- 1) Please schedule a follow-up appointment in 3 months.
- 2) Discussed importance of regular exercise and recommended starting or continuing a regular exercise program for good health.
- 3) The patient was encouraged to lose weight for better health.
- 4) Most patients (90%) of patients with low back pain will improve with time (2-6 weeks). Limit activity to comfort and avoid activities that increase discomfort. Apply moist heat and/or ice to lower back and take medication as instructed for pain relief. Please read the Back Pain Handout and start Physical Therapy as directed.
